STANDING OF THE COUNTIES.

The standing of the counties of this State on the financial question, according to the action of the Democratic convention in each to dat, is as follows:

For Suver.	For Goid.	No Instruction
Bedford, Hallfax, Montgomery, Westmoreland, Loudon, Greenville, Pulaski, Frankiin, Charlotte, Richmond, Spottsylvania, Gloucester, Fiuvanna, Powhatan.		lele of Wight, Alleghany.

TENNESSEE Damocrate will to-day declare for the free coinage of silver at the ratio of 16 to 1. The people are evidently of the opinion that the financial policy of this country needs re-

Indiana Republicans may yet vote for General Harrison as their choice for President in the St. Louis convention, and while the ex-President is not volunteering his services it begins to look like he would not object to being "drafted" for the race.

IT must be very discouraging to advocates of the gold standard, who were so confident twelve months ago that Virginia would pronounce for monometallism, to see the lively rate at which Democratic county conventions are instructing delegates to vote for sil

SENATOR HILL is determined to keep himself before the people. Having been very much disfigured in his fight for prominence as a Presidential possibility, he is now posing as a Senatorial humorist, greatly to the disgust, no doubt, of some of the Senators who have felt the keen thrusts of his shafts of wit and sarcasm. Like Banquo's ghost, he will not down.

NATURE is sometimes hard; sometimes cold and cruel, but she does not wear a mask. In the song that comes from the bird's happy throat there is sincerity. Every note has the ring of honesty, the music of truth. The smile of the sun, the tears of the clouds no one charges with hypocrisy. There is no double meaning in the light of the stars. You do not find a hypocrite until you come to man .- L. K. Washburn.

NOTWITHSTANDING Ex-Governors Russell and Patterson are pronounced candidates for the Democratic nomination for President and that others will appear as the campaign progresses, it is still reported from Washington that President Cleveland desires to remain at the White House five years longer, and is bending his best energies to carry out his wishes. All this may be true, but he will never be nominated, even by the gold bugs.

In alluding yesterday to the fact that a Western firm had written to Dr. Scherer, immigration agent of the Norfolk and Western Railroad Company, in regard to locating in some city an industry employing 500 persons, we inadvertently called it a "cloth" factory, when it should have been a "clock" factory. With this explanation, however, we repeat the wish that the citizens of Roanoke will carefully examine the proposition, and hope that the plan may be found feasible in every respect.

THE MOST PAVORED SECTION.

Important results to the South should follow the meeting of the Southern States Settler's Association at Southern Pines, N. C. About one thousand persons were in attendance at the first day's session of the association on Tuesday, every State in the South and ten Northern States being represented. Twenty-five representatives of Northern newspapers and representatives of all the chief rallway lines in this section were also present, along with Governor Carr and other State officers of North Carolina.

The Governor's speech of welcome was very warm and cordial, and he struck keynote of the situation when he said, if the Northern settlers would say they had been benefited in health by residence in the South, and had felt as secure in person as in the place from which they came, that great material good would result from this declaration.

That they could do this was evidenced by resolutions which the association subsequently adopted, to the effect that as citizens of this section formerly re-

siding in the North and conversant with the facts vital to the interests of those contemplating immigration, it was deemed "a pleasure, as well as a duty, to heartily recommend the South as most desirable for permanent residence as regards climate, health, fertility of soil, cheapness of farming, fruit and truck lands, congenial environment and all else which tends to the peace, health, comfort and prosperity of peo-

Words could hardly be stronger than this endorsement of men who know whereof they speak. They have lived in the North or Northwest; they have lived in the South, and it is their deliberate opinion that, in all the essentials to happiness and prosperity, this is the most favored section of the Union. When it is remembered what a great country this is, and how favorably any portion of it will compare with the world outside, the tribute to the Southern States becomes even more ap

Our people are indeed fortunate in having such a splendid country and such a glorious climate, and if they are true to their best interests, they will spare no effort to make known their many and great advantages to the rest of the world, in order that immigrants may flock hither and aid in the rapid development of the wonderful resources

BASEBALL YESTERDAY.

As Ball-Chasers, the "Brownies" Had Plenty of Work.

The Mountaineers had a mascot yes-terday in the personage of Black Rufus, an attache of the Ponce de Leon hotel. Rufus is a firm believer in spirits, ghosts and hoodooism, and said he would put a "spell" on the "Grangers" and make them lose, and lose they did, and in great shape

great shape.

Boyer's aggregation, dubbed by the Eastern clubs the "Goats," had on the batting apparel yesterday and hit every ball hard that was put over the plate. The ball was knocked up and down, crossways and sideways, and every time it struck the ground it was in some place where it was impossible for the fielders to get it.

place where it was impossible for the fielders to get it.

G. Reiman started in to pitch for the visitors, and the locals started the rungetting in the first inning. Whitehill was presented with four balls and crossed the rubber on Wrigley's single. In the second inning the hitting meles started with a single by Harry Tate. Grove went out on a long fly to right field. Then every man at the bateither cricked out a single rapped out a double or smashed out a triple until eight men had chased over the rubber with a total of nine hits. McNamara was substituted in the latter part of the second inning in Reiman's stead and he did not fare much better than his predecessor.

much better than his predecessor.

In the third Whitehill led off with a nice little single to center field, Cockman went to first on a ball hit to the in-field, which was thrown to second, but a little too late to catch Whitehill. Pop Tate, with a confident air, walked up to the plate and smashed the sphere over the plate and smashed the sphere over the left field fence for a home run. Wrigley knocked out a two-bagger, Williams went to first on four balls, and both scored on a safe hit by Harry Tate and error of Hall, and McNamara's wildness in forcing the latter in by giv-ing Gochnaur his base on balls when the bases were full.

the bases were full.

In the fourth Manager Marr, of the Portsmouths, who is playing right field, took McNamara out of the box and pitched the remainder of the game himself. In this inning the Mountaineers added two more runs to the score, and in the fifth Groves sent the horsehide to the right field fence and made a tour of the bases before it could be tour of the bases before it could be

thrown in.

In the sixth, "Pop" led off with a single, but was caught napping and called out. Wrigley, who had already a single, a double and two triples to his credit, lifted the sphere over the left field fence for a "homer." Groves and Gochnaur followed with a double and triple, and both scored, thus adding four more runs to the already long list, which ended the run gesting of the which ended the run getting of the

Lipp went in to pitch for the bome team and the Grangers went to bat first. Marr was presented with four balls; McGhee, Rollins and Burke all hit safely in succession and Hargroys trotted to first on four bad balls. Willis

trotted to first on four bad balls. Willis was substituted in Lipp's place at this stage of the game, and the fans looked gloomy, for before the inning was over six men had chassed over the rubber.

By opportune histing the "Grangers" scored their last two runs in the second, after which Willis, the little Southpaw, had them completely at his mercy, and during the remainder of the game only allowed them to get three scattering hits. The score:

Depends upon keeping the blood in a pure condition, free from disease germs, and yet there are very few people who have perfectly pure blood. Hood's Sarsaparilla cleanses, vitalizes and enriches the blood, throwing out the impurities that clog and irritate the system and permits no lodgment of the seeds of disease. Read the following:

"I cannot recommend Hood's Sarsans rilla too highly for it has done wonders

poor I could not get out of doors: I was not able to do anything, being troubled with asthma and heart disease. I was nervous and could not sleep nights. I had become completely discouraged when I happened to read an advertisement of Hood's Sarsaparilla and concluded to give it a trial. After taking the first bottle I felt better and since taking five bottles I am so much improved that I feel like s new man. I am now able to do a fair

at night. My heart does not trouble me and I have realized great relief for asthma. I feel full of courage once more and life seems brighter and worth living. I would recommend Hood's Sarsaparilla to all afflicted as I have been, for I know it will help them. If this statement of facts will be of benefit, you are welcome to use it as you please." HENRY J. WRIGHT. Box 502, Oxford, New York.
